

motivation & perspectives

» Sometimes you can't make it on your own... «

"In 2 months I'll finish school. I'll have my certificate then. And how will it go on?"

"I'm down and out. At school it's not working at all, I think I'll spoil my qualification. School? – I can't be bothered. What is it good for anyway?"

"My final report was good. Good marks – everything alright... But I haven't got a clue how to go on... Choose a job and apply – easier said than done!"

"In my home country I was good at school; there my certificate is excellent. But what can I do with it here in Germany? Everything is totally different here..."

"I quit my apprenticeship... That really, really wasn't my fault. What shall I do now...? Have I still got a chance?"

"If sometimes you feel the same, too, come and see us."
